

A Word on Recycling

Dear Resident,

Welcome to your new home. This residence operates a successful recycling program and we depend on our residents to participate by properly disposing of waste and recycling. The more we recycle the less garbage we create, which reduces the cost of waste disposal and helps the environment.

Where to recycle

Our recycling bins are located

Each bin has a label to advise you which materials belong where.

What to recycle

Please recycle the following items:

- Plastic and metal containers
- Boxboard, paper products, and film plastic (like grocery bags)
- Glass bottles and jars
- Cardboard (like moving boxes and clean pizza boxes)

For more information on sorting and what items are recyclable, please refer to the Cart Recycling Guide provided to you or visit quinterecycling.org.

Recycling reminders

Please remember to do the following when recycling:

- Sort your recyclables.
- Ensure items are clean and empty.
- Flatten cardboard.
- Put items loose, not bagged, into proper recycling bins. Only shredded paper and plastic bags should be bagged in clear, plastic bags.
- Keep non-recyclable items, like food and liquids, out of the recycling.

If you have any questions about the building's recycling program, please contact me.

Thank you in advance for your recycling efforts.
